

15 December 1969

MEMORANDUM FOR: Deputy Director for Support

SUBJECT: Recent Visit to Naval War College

1. On 3 December I accompanied General Cushman on a visit to the Naval War College in Newport, Rhode Island, where the General was scheduled to make a speech.
2. Before lunch I met with the four Agency members of the current course for about a thirty minute chat on the Agency. Among the Agency students was [redacted] of the Office of Communications who, I understand, is scheduled to serve a term on the staff of the Inspector General.
3. I had previously known the other three CIA students; but on the basis of my session with the group and later contact with them at lunch, I felt that [redacted] was definitely the most impressive of the lot. He is obviously intelligent and seems well informed about the Agency and the Intelligence Community, but he also impressed me as being a very poised, sensible and mature individual. You are well represented at Newport.
